

Welcome to TNB eNews!

Update Your PASSPORT eMail Address

Additional eDelivery Notifications also include Scheduled Balance Transfers and Balance Notifications. Therefore it has become even more important for you to maintain a current eMail address for your online product.

PASSPORT online retail customers must maintain their address in several places depending upon the type of notice desired.

For Secure eMails Sent Within PASSPORT, eStatements and NFS/OD eNotifications:

Please update at "User Options > eMail Address > Change eMail Address > Internet Banking > eMail Address > Reset"

Once you have entered your updated address, the next step is to sign into eStatements and open any statement; this action will notify the eStatement and eNotification system of a change in address.

For Scheduled Transfer Notifications:

If you have requested recurring transfers within PASSPORT between TNB accounts, please update at "Account Access > Scheduled Transfers > Schedule Transfers Summary > Action/ Edit > eMail Notification to:"

For Balance Notifications:

If you have requested eMail notification within PASSPORT when an account goes below or above a pre-established balance, please update at "Account Access > Notifications > Action/Edit > eMail To > Save Notification"
